**FASHIONABLE CLOTHING!**  
READY MADE AND CUSTOM WORK.  
-FOR-  
**Men, Youths & Children**  
DEPARTMENT  
No. 1 contains ready made suits for men, cut by  
the latest and most approved patterns, the  
travelling styles of the North and Europe,  
but those of two or three years ago. Buttons  
and Dress Suits and Overcoats, in mate-  
rials that are guaranteed, are to be found in  
this department.  
No. 2 contains ready made clothing for young men.  
An elegant stock selected with special regard  
for the taste and peculiar requirements of the  
young generation, embracing everything from  
office or state suits to those demanded by the  
leisure hour or opera.  
No. 3 contains boys' suits cut in a variety of styles  
and adapted for youngsters three years of age  
and upward. This is a department particularly  
attractive to parents, and has for years been  
made up in a special feature for the young  
fashionable trade. It is now full, with a splendid as-  
sortment of boys' styles.  
No. 4 contains a full stock of men's and boys' Fash-  
ionable Goods, novelties in Shirts, Collars,  
Cuffs, Ties, Scarfs and Suspenders. Only the best  
quality of goods in gentlemen's  
Underwear are kept in this department. No. 5  
is a perfectly fresh stock of Kid, Dog Skin  
and Women's Gloves.  
No. 6 contains made to order clothing. Stocked  
in Europe or the United States, giving cus-  
tomers a wide range in patterns or fabrics  
from which to select. This department is in  
charge of an experienced and skillful cutter  
and produces work not excelled by the high-  
est price or most fashionable tailor in this  
city.  
I HAVE NOW OPENED THE  
**FALL AND WINTER SEASON OF 1880,**  
with one of the largest and cheapest stocks of

EVEN the weather is afflicted with a  
solid North tendency.  
THE Northern lakes, rivers and  
canals are reported as being blocked  
with ice.  
There appear to have been a good  
many un-ferry-fied Democrats in  
California.  
THE Public Produce Exchange of  
Chicago, has closed its operations  
\$100,000 short.  
THE number of Indians in the United  
States, not counting those in  
Alaska is 255,000.  
EVERYTHING may be for the best;  
but it looks to us that there has been  
a surplus of moisture this fall.

change them with being ungrateful."  
Mrs. Rebecca Bunn, wife of Mr. J. W.

bune, believes that John A. Kasson,  
of Iowa, now minister to Austria, will  
be the next speaker of the House of  
Representatives.  
THE Receiver of Taxes in New York  
city collected \$13,189,271.05 of taxes on  
real and personal estate between Oc-  
tober 25 and November 16.  
THERE will be an election next  
Tuesday in Holmes county for Sheriff  
and Chancery Clerk, to fill the vacan-  
cies occasioned by the death of Mr.  
Ashcraft and Lockhart.  
Notwithstanding the restrictions on  
the trade, during the past 3 months  
16,700 American cattle were landed at  
Liverpool. During the year 1,115  
head were lost on the passage.  
IT is reported that "Mr. James  
Gordon Bennett is going to sea on a  
whaling voyage." We should think  
that Mr. Bennett has had whaling  
enough at the hands of Jno. Kelly and  
his organs to do him for the present.  
GOV. JAS. WILLIAMS, of Indiana,  
is dead. He was generally known as  
"Bine Jeans," and the testimony  
shows that he was justly entitled to  
the reputation of an honest man and  
conscientious public servant.  
Siemens Brothers, of London, the  
cable contractors, have received an or-

Here lies the body of Robert Gordon—  
Mouth almighty and teeth accursed,  
Stranger tread lightly over this wonder.  
If he opens his mouth you're gone by thun-

The Nashville American asks the  
following question, which we consider  
a pertinent one: "After all, are such  
plays as *Camille* and *Frou-frou*  
worth the bringing an actress from  
France to interpret them to the Ameri-

THE SOUTHWESTERN CHURCH-  
MAN.  
The first number of this new relig-  
ious and scientific weekly, published  
in New Orleans, has reached our sanc-  
tuary. To say that it is edited by Rev.  
Dr. Edward Fontaine is to convey the  
assurance at once that it is richly la-  
den with matured and brilliant  
thoughts in religion and science. Dr.  
Fontaine has been a close student and  
earnest investigator all his life, and he  
has the gift and faculty of learning  
faster and more than almost any other  
student. He has written enduring  
pages on the book of science, and made  
many marks in the limitless field of  
investigation that will stand out as  
the brighter after his great grandchild-  
ren are dead. We regard him as one  
of the first scholars and scientists of  
the age. His book showing "How the  
World was Peopled," gives a wealth  
of research that makes it indispen-  
sable in the libraries of the scientific  
and profound student of theology and  
philosophy; and his Treatise on Hydrau-  
lic Engineering, submitted to and pub-  
lished by Congress, exhibits him as a  
master in that great science, so little  
understood by the masses, and which  
promises such unbounded benefit to  
the health of people and production  
of soils. His illustrations of the  
power of a jet of water, when the  
water is forced out of a hole in the  
bottom of a vessel, is a beautiful and  
intelligent and scientific application  
of an advance upon the ideas of Captain  
Ends on that line, and, in our opinion,  
a decided improvement upon the sys-  
tem of the latter.  
In his paper the Churchman, the  
reader may expect much that is pro-  
found, abstruse, new, fresh and racy.  
He had better have his unabridged  
dictionary at hand to meet the emer-  
gency of jaw breakers. But while  
the learned editor drifts often into un-  
frequent depths of erudition, he has  
an eye always to the practical, and oc-  
casional glides into humorous friv-  
olity, holding the doctrine that "there  
is a time to laugh," and that "a merry  
heart doeth good like a medicine."  
We have read his paper through, and  
enjoyed it, a circumstance which hard-  
ly ever occurs in relation to other  
newspapers.
